

IDE-SATA-SI

Bi-directional IDE to SATA Adapter

Extend your Hard Disk Lifespan.

Looking for complete flexibility when adding your existing SATA or IDE interface Hard Disk(s) to your system?

Introducing the new Dynamode **IDE-SATA-SI**. A discrete, PCB level adapter which simply connects to the rear interface of any SATA or IDE Hard Disk or other Mass Storage Device (MSD) without taking up valuable space inside your Desktop or Server chassis.

Allowing 'Boot Time' level Storage attachment, the IDE-SATA-SI needs no software to be installed and converts SATA (Serial ATA) to ATA (Parallel ATA) and vice versa, quickly and with minimal fuss. Comes embedded with dual SATA Ports, one ATA/133 IDE type interface and a single 4-Pin Power Connector.

Fully bi-directional in operation the device also comes with a unique status LED showing data activity together with bundled SATA-SATA data cable and 4-Pin to standard 'Molex' Power cable.

Available now from Dynamode authorized distributors and resellers
