

PCI-3PFW

PCI IEEE 1394 (Firewire) Card

Introduction

Operating at speeds of up to 400Mbps, the Dynamode 3 port Firewire card is the ideal expansion card for connecting external high bandwidth devices such as; digital cameras, personal audio players, hard disks and camcorders.

Features

- ▶ 1394 Standards Compliant IEEE 1394-1995, P1394a(rev1.1) and OHCI(rev1.0)
- ▶ Data transfer: Asynchronous and isochronous data transfer at 100/200/400Mbps data rate
- ▶ Hot plugging, dynamic reconfiguring of up to 63 nodes on the bus, no need to turn off the system when adding or removing 1394 devices
- ▶ 3 fully independent ports to provide maximum peripheral connections
- ▶ PTC resettable fuses for reliable over current protection
