

# USB-ALL-IN 5.25"

Integrated 5.25" MediaCard & Connectivity Bay

FireWire

CompactFlash™

Microdrive™

## Introduction

The ideal solution to maximise your multimedia and connectivity options, the new **USB-ALL-IN 5.25"** connectivity bay from *Dynamode*.

Offering a number of options, the USB-ALL-IN features our acclaimed MediaCard technology, reading at full 480Mbps all popular Card Formats including *CompactFlash™*, *SD™*, *MemoryStick™* and *MMC™* amongst others.

Also featured are **three front-mounted USB2.0 Ports** (backwardly compatible of course), **single FireWire IEEE1394 port** (ideal for consumer electronic devices such as Digital Video), **PS/2 Inputs** (for compatible Keyboard, Mouse and other input devices) and the exciting **SATA connection** for direct Mass Storage Devices using the unparalleled performance of Serial ATA technology.

Rounding off this feature packed product is a **full 6.1 Channel Audio** coupled with front Speaker and Microphone inputs – *only from Insixt*
