

# USB-H70-1A2.0

*LumiHub™ – 7 Port high speed Active USB Hub*

## Introduction

Dynamode has a long established name in the realm of USB products and the new 7-Port Active USB2.0 Hub is a cost effective and stylish new member to the family.

The **USB-H70-1A-2.0** is a feature-rich Active USB2.0 (480Mbps) compatible Hub with an exciting electro-luminescent LED effect on each ports when USB devices are connected – the perfect desktop companion for both Business and Home users.

But it's not just stylish good looks. The *LumiHub™* is also backward compatible with USB1.1 (12Mbps) devices and comes complete with a mains adapter for full Active Power configuration as needed on some USB devices such as Printers and Scanners. Also featured is Over-Current protection on each downstream Port to protect your Laptop or PC when connected to a USB device.

So for a stylish, low cost high performance Hub with some great features look no further than the *LumiHub™* – **only from Dynamode**
