# NC-1000TX-G
## 10/100/1000Mbps Ethernet Card

**Dynamode**

RoHS COMPLIANT 2002/95/EC

PCI EXPRESS ®

### SOFTWARE SUPPORT
- Setup/Diagnostic program for DOS
- Diagnostic tools for Windows(98,NT,2000,XP)
- NDIS2(DOS,OS/2,LANtastic,WFW3.1)
- NDIS3,NDIS4,NDIS5 for windows98,NT3.1,3.5x, 4.0,2000,WFW3.11
- Netware 16-bit ODI Driver for DOS,OS2 and 32bit ODI Driver for netWare3x,4x,5.0 sever
- Packer driver for UNIT Client
- Unix Were 7.0/Linux Driver/SCO Unix driver/MAC Driver
- Real-time OS Driver support
- Microsoft Windows CE Driver
- QNX driver/Free BSD/Macintosh Mac OSB.x/9.x
- Help utility to Easy Installation.
- RPL Boot-Rom for Novell Netware. Microsoft NT.
- PXE Boot-Rom(Ver0.99 Ver 2.0)
- FIsh Programming Tool.
- Test Program for Mass Production.
- Windows 2000, XP, Vista,Win 7.

### GENERAL DESCRIPTION
- High performance Gigabit 32-bit PCI adapter with integral RealTek RTL8169S chipset for improved reliability

### FEATURES:
- Integrates 10/100/1000Mbps Gigabit Ethernet MAC controller for autosensing operation
- Compliant with PCI 2.2 and fully Plug n' Play
- Bus Mastering with Full/Half duplex flow control
- Auto Skew, Polarity and Pair-Swap correction
- Wake on LAN (WOL) with Boot ROM and Flash support
- Checksum off load processing for improved IP performance
- 802.1Q VLAN tag support, 802.3x, 802.3u, 802.3ab compliant
- 3.3v signaling, 5v PCI tolerant
- Lower Power consumption mode
