

DH-878

Performance surround sound headphones + microphone

The new standard in performance headphones for business and pleasure.

Looking for a high-quality and feature-rich headphone for business and gaming pleasure? Fed-up with your uncomfortable headphone design? Do you need voice capabilities for Skype?

The exciting Dynamode **DH-878** surround sound headphones offer great features at a low price point. Featuring a newly designed, soft-padded ear cup, which also help block unwanted, external sound. Enhanced, rare-earth speaker drivers help to produce sound of high-clarity with both exceptional bass and treble response, ideal for the latest generation gaming for a truly immersive experience, either online or local game-play.

And if you're needing a quality headphone for your business, such as VoIP applications, or if you're a student looking for a stylish and lightweight headphone with microphone capabilities, then again the **DH-878** is the smart choice.

High-sensitivity and adjustable microphone, in-line volume control coupled with total adjustability for a snug and comfortable fit means the **DH-878** is your ideal partner, at home or at the office!
